

# INVITATION TO PARTICIPATE IN ACTUARIAL SCIENCE AWARENESS OUTREACH PROGRAMMES

## ACTUARIAL EXPOSURE PROGRAMME (AEP)

**TARGET AUDIENCE**  
Grade 12 learners

## ACTUARIAL SCIENCE AWARENESS WEBINAR

**TARGET AUDIENCE**  
Grade 8 – 12 learners

## AN HOUR-WITH-AN-ACTUARY

**TARGET AUDIENCE**  
Grade 11 learners

The South African Actuaries Development Programme invites your school to participate in the Schools' Outreach Programmes. The programmes target high achievers in Mathematics, Physical Sciences, and English – achieving at least 75% in these subjects. The Outreach Programmes are SAADP's initiatives aimed at educating learners about Actuarial Science as one of the most scarce careers in South Africa.

### THEME

It's Cool to be an Actuary!

### OBJECTIVES

- To attract the attention and generate interest of high achievers to the Actuarial Science profession.
- Positively influence high achievers' career decision making process.
- To sensitize high achievers to consider Actuarial Science as a doable course.
- Raise or reinforce awareness about the Actuarial Science profession and SAADP bursary.
- Recruit new students for the 1st year Actuarial Science class of 2023.
- Answer questions that aspiring learners may have.

If you would like your school to participate, kindly identify and list your high achievers using the registration forms below and send the form to [mthokozi@saadp.co.za](mailto:mthokozi@saadp.co.za) or contact us for more information at +27 (0)11 642 2202.

# ACTUARIAL EXPOSURE PROGRAMME

AEP is a form of a virtual Job-Shadowing programme designed for ambitious Grade 12 learners. To participate in this programme, a Grade 12 learner must be achieving high marks in Mathematics, Physical Sciences, and English (at least 75%). A learner must also have uninterrupted access to stable internet connection as all interactions happen virtually.

## **How AEP works**

- Interested learners are introduced to a qualified Actuary or Actuarial Science graduate.
- An actuarial professional virtually exposes learners to the actuarial material by showcasing what she or he does on a daily basis for five (5) days.
- Learners have an opportunity to have their questions answered by an actuarial professional.
- The frequency of interactions with an actuarial professional is determined by the availability of both the learner and the actuarial professional.
- The interactions may take more than 5 days depending on the availability and the willingness of the actuarial professional.

# ACTUARIAL SCIENCE AWARENESS WEBINAR

The aim of the Actuarial Science Awareness Webinar is to educate interested learners about the Actuarial Science career. For two hours, aspiring learners interact with actuarial professionals virtually and have an opportunity to ask questions. To participate in this programme, learners from Grade 8 to 12 must show potential to become high achievers (especially) in Mathematics, Physical Sciences, and English. A learner must also have uninterrupted access to stable internet connection as all interactions happen virtually.

There will be two webinars in 2022 and are scheduled as follow:

## WEBINAR 1

**Date:** 28 June 2022

**Time:** 12h00pm

**Platform:** Microsoft Teams. Link to be shared closer to the webinar with registered learners.

## WEBINAR 2

**Date:** 06 October 2022

**Time:** 12h00pm

**Platform:** Microsoft Teams. Link to be shared closer to the webinar with registered learners.

# AN-HOUR-WITH-AN-ACTUARY

This programme is a form of a virtual Job-Shadowing which targets Grade 11 learners. It is similar to the AEP but it is scheduled to last only for one (1) hour. To participate in this programme, a Grade 11 learner must be achieving high marks in Mathematics, Physical Sciences, and English (at least 75%). A learner must also have uninterrupted access to a stable internet connection as all interactions happen virtually.

## How the Programme works

- Interested learners are introduced to a qualified Actuary or Actuarial Science graduate.
- Learners interact virtually with an actuarial professional for one (1) hour.
- Learners have an opportunity to ask relevant questions to the actuarial professional.
- The interaction may take more than an hour depending on the availability and the willingness of the actuarial professional.
