

An-Hour-with-an-Actuary

Qualified black Actuaries are hard to find. This leads to a lack of awareness and aspiration for a black child to pursue a career as an Actuary because they do not see any qualified Actuary that looks like them.

SAADP partners with its Alumni to engage the learners on Actuarial Science for at least one hour face-to-face or online. During the engagement, learners have the opportunity to have their questions answered by Actuarial professionals as they explore career options.

Who can participate?

- Grade 09 - 11 learners from rural and township areas who exhibit a high proficiency in Mathematics.
- Grade 09 - 11 learners with the potential and ability to obtain at least level 6 in Maths and English at the end of the year. *Some universities may require Physical Science.*
