

Congratulations to Our Qualified Actuaries

A huge congratulations to the SAADP Alumni who've reached the pinnacle of actuarial qualification - a milestone shaped by late nights, a few doubts, and a steady refusal to quit. The names on this list hint at individual stories that may remind you how opportunity can open when someone gets the right support at the right moment. These actuaries appear to reflect what SAADP has long worked toward: young South Africans who push boundaries, lift others as they move forward, and quietly shift expectations of what's possible. Their achievements create a ripple effect too, likely inspiring those who follow and keeping the heart of SAADP's mission very much in motion.
